

How to Uninstall the Large Print and Braille Macro Files

Overview

There are three files which need to be uninstalled. These are the same files in the same locations where they were placed using the installation procedures.

Procedure

Microsoft Word and Microsoft Outlook must NOT be running during this procedure.

1. Open the folder named "LP and Brl Installation". The contents will look like this:

Name	Date modified	Type
Installation Files	3/5/2021 12:20 PM	File folder
User Guides	3/6/2021 9:31 AM	File folder
How to Find Your Version of Word.pdf	2/4/2020 11:12 AM	Adobe Acrobat Document
How to Install the Large Print and Braille Macro Files.pdf	3/6/2021 1:30 PM	Adobe Acrobat Document
How to Uninstall the Large Print and Braille Macro Files.pdf	3/6/2021 1:29 PM	Adobe Acrobat Document
Video - Installing the Large Print and Braille Macro Files.mp4	8/14/2019 12:23 AM	MP4 Video File (VLC)
Video - Saving and Restoring Word's UI.mp4	8/14/2019 12:23 AM	MP4 Video File (VLC)
Video - Uninstalling the Large Print and Braille Macro Files.mp4	8/14/2019 12:23 AM	MP4 Video File (VLC)

2. Open the folder Named "Installation Files" The contents will look like this:

Name	Date modified	Type
Open Me If LPandBrl.dotm Installation Location Is Not Found	3/1/2021 12:00 AM	File folder
LargePrintTemplate.dotx	3/5/2021 12:29 PM	Microsoft Word Template
LargePrintTemplate.dotx Installation Location	3/5/2021 12:29 PM	Shortcut
LPandBRL.dotm	3/5/2021 12:29 PM	Microsoft Word Macro-Enabled Template
LPandBrl.dotm Installation Location	3/5/2021 12:29 PM	Shortcut
Word.officeUI	3/5/2021 12:29 PM	OFFICEUI File
Word.officeUI Installation Location	3/5/2021 12:29 PM	Shortcut

The three files and their destination shortcuts are shown in the table below.

File Name	Purpose	Destination Shortcut
LargePrintTemplate.dotx	A Word template file containing all of the large print styles	LargePrintTemplate.dotx Installation Location
LPandBRL.dotm	A Word macro enabled file which contains macros for both large print and braille	LPandBrl.dotm Installation Location
Word.officeUI	A file containing the Word ribbon and the Quick Access Toolbar for Large Print and Braille	Word.officeUI Installation Location

3. The following process is identical the for each of the three files... find the location and delete the file.

- Double click the shortcut named "LargePrintTemplate.dotx Installation Location"
Select the file named "LargePrintTemplate.dotx" and delete it.
- Double click the shortcut named "LPandBrl.dotm Installation Location"
Select the file named "LPandBRL.dotm" and delete it.
- Double click the shortcut named "Word.officeUI Installation Location"
Select the file named "Word.officeUI" and delete it.

Note: If you had, renamed the existing "Word.officeUI" to something like "Old Word.officeUI" then you can rename the "Old Word.officeUI" to "Word.officeUI" and the previous Word ribbon and Quick Access Toolbar will be restored when Word is started again.
