

Introducing a Microsoft Word Template and VBA Macros for Producing Large Print for Paper and Enlarged Electronic Text for Screen Devices

Thumbnails shown below: 18-point font on letter size paper, a 9.7 inch iPad screen, and a 12.9 inch iPad screen.

It's Free!

This free product includes a template and macros for producing large print for printing on paper and for producing enlarged electronic text for screen devices (computers and pad devices). The product can be used for personal, educational, or commercial purposes without charge.

Capabilities

Can produce text sizes from 14 to 42 in two-point increments for both paper documents and electronic text viewed on a tablet or computer screen.

Has pre-defined paper size selections for 8.5x11 paper with half inch, three-quarter inch, or one-inch margins.

Has pre-defined selections for tablet sizes (diagonally measured in inches) 9.7, 10.1, 10.2, 10.5, 11.0, and 12.9.

Has custom controls for creating large print in landscape or portrait mode for **ANY** supported paper size and any tablet or computer screen size.

The electronic text for tablets and computers is searchable and readable with screen readers and includes a feature which enables the user to move to any requested page in original document by searching for the page number. Word's table of contents creation feature using hyperlinks to document sections or chapters on tablets and computers provides easy movement through documents.

System Requirements:

- Microsoft Windows 7 or higher
- Microsoft Word for Windows versions, 2013, 2016, 2019, 2021, or 365 (locally installed).

Downloading the Installation Package

The installation package contains both a written description and a video to guide you through installation. Installation takes less than 5 minutes.

A detailed user guide for the large print template and macros is included.

The installation package also includes a user guide and macros for the BANA braille template for the Duxbury Braille Translator. The MS Word ribbon tab for the BANA macros can be shown on Word's ribbon interface or hidden from view (details are in the written installation guide).

A document containing hyperlinks to the most recent version of the Large Print Template and Macros and the BANA braille macros for the Duxbury Braille Translator can be viewed and/or downloaded here.
